More Innovative Ideas From Diamond Logix[®]

**Diamond[®] Cabinets Expands Logix[®] Product Line With
More Organization Options, More Design Flexibility, More Everyday Solutions**

Diamond Logix[®] builds on its successful drop-zone concept with two new utility cabinets designed for all the extra “stuff” that life throws at us.

Utility Drop Zone Cabinet

The Utility Drop Zone Cabinet creates designated parking space for car keys, cell phones, kids’ backpacks, gloves and such, thanks to shelves and a pull-out electronics charging station. A back-of-door magnetic whiteboard and pencil holder provides a place to jot messages and keep track of who’s going where. The cabinet is 24-inches deep and is available in heights ranging from 84 to 96 inches.

Utility Organizer Drop-Zone Cabinet

Designed to be used at the end of a cabinet run, the 9-inch deep Utility Organizer Drop-Zone cabinet provides a charging station for small electronic devices, hooks for items such as car keys, hats and handbags, plus open space to accommodate items of varying sizes.

EasyTrax[™] Cabinet

The new EasyTrax[™] Cabinet from Diamond Logix[®] features a sliding shelving system with five trays that can be rotated along a heavy-duty ladder system — without the hassle of pulling out a toolbox. The easily manageable sliding trays can be quickly changed into one-, two-, three-, four- or five-shelf combinations at varying heights, making it possible to tuck away anything from tall blenders and bulk-sized soda bottles to small food cans and packages.

Available in standard height base, full-height base, or utility cabinet configurations.

Wall and combination cabinet must-haves

2-Drawer Wall Unit With Tiered Drawer Inserts

Diamond Logix® transforms a staple of kitchen functionality into a modern storage must-have with the new 2-Drawer Wall Unit With Tiered Drawer Inserts, designed to organize small items such as spice jars or medications.

Also available is a new kitchen combination with a name that says it all: the **Wall Cabinet with 2 Drawer Unit Below and Tiered Drawer Inserts.** (not pictured)

More everyday solutions

Wall Spice Pullout

The Wall Spice Pullout from Diamond Logix® is an everyday storage wonder. At just 9- or 12-inches wide, its five shelves with side racks are perfect for organizing small-to-tall jars and bottles.

Base Recycling Unit

A truly out-of-sight solution for kitchen functionality is the new Base Recycling Unit, which holds and hides four 27-quart removable bins for recyclable papers, jars, glass and plastic items.
