ONE BRAND. TWO PLATFORMS.

♦ FRAMED CONSTRUCTION
The more traditional of our two options, this is likely the cabinet construction you knew growing up. This platform features a 1-1/2” face frame behind the door and drawer front where the door hinges to the cabinet box, accommodating both full and partial overlay door styles. Regardless of the door style chosen, a portion of the frame will be visible when the doors and drawers are closed.

♦ FULL ACCESS CONSTRUCTION
A platform of European origin, this trending construction – sometimes referred to as Frameless - has become popular with homeowners in search of a more streamlined aesthetic. Since the frame is eliminated, only full overlay door styles are available. Cabinet sides are thicker for added stability and serve as a solid place for door hinges to be directly attached. Since there is no frame, only a small sliver of the cabinet box is visible when the doors and drawers are closed.

SHEENS

SATIN SHEEN

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

MATTE SHEEN

Our new low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

TECHNIQUES

DISTRESSING

Unique imperfections like wormholes, chisel marks and tiny dents and dings replicate the wear found on a well-loved piece of furniture.

HEIRLOOMING

Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.
Since Full Access cabinetry is built without a traditional frame, this construction platform has become a growing trend for homeowners in search of a streamlined look, since only a small sliver of the cabinet box is visible when the doors and drawers are closed. Available on most Full Overlay door styles with the exception of Worthen and MDF styles.
